# Premier Plumbing & Refrigeration Pipe system Solution

ZHEJIANG JIANGXIN COPPER PIPELINE CO.,LTD.

# WHO ARE WE ?

- Zhejiang Jiangxin copper pipeline Co., Ltd. was established in 1990, located in the Ruanshi Industrial Park in Zhuji, Zhejiang province. The two section of the company covers an area of 20000m<sup>2</sup> and more than 200 employees.

- The company has formed five series of products: Copper welding series, Copper press-fit series, AC copper pipe fittings, Valve, compression brass fittings. All the series of product not only to meet the customer's requirements for the national standard CJ/T-2000, the British standard BS864-2, the American Standard ASME B16.22-1995, the European standard EN1254-2, but also to accept all kinds of non-standard fittings based on the special needs.

- The quality control in the production process. First: the rough is checked by the inspector. The staff will measure the accuracy according to the drawing, and all the testing tools are imported from Australia. Second: inspectors carry out uninterrupted inspection of each product being produced. The packaging workshop tests the appearance and size of each product; third, the final product is checked, each product size must conform to the AS3688 drawing standard, and the quality inspection personnel record the product data of the test.

- The products of Jiangxin pipeline are certified by ISO9001 international quality system certification and AS 3688 Australia standard. The production process of raw materials inspection, raw material processing, annealing process, product quality inspection and finished packaging are strictly carried out according to Australian standards. Under constant demands and improvements.

- The attitude determines the height, the details determine the success or failure, the above is the summary of the high standard of our production process, not only in the process, in the enterprise staff management, equipment management, warehousing logistics, financial accounting, office environment and other aspects of the high standards of their own. With the continuous self demand and promotion, our product quality will also give customers the perfect use of experience, to help customers win honor and reputation in the market, to realize the vision of the leading enterprise in the field of pipeline fittings.

## Production line

Jiangxin has 2 production lines. One for copper pipe fittings and another is brass fittings. And annual output more than 2000 tons copper and brass fittings. All the employees attend training regularly. To guarantee the quality.

# WHO TRUST US ?

China CRH train  
Refrigeration pipe system

Shanghai Intercontinental hotels  
Refrigeration pipe system

Bordeaux Chateau Cheval Blanc  
Condensing pipe system

Barcelona Camp Nou  
Water pipe system

Ibis Sydney Hotel  
Plumbing pipe system

The university of Auckland  
Plumbing pipe system

Singapore National University Hospital  
Gas pipeline system

Air conditioner  
Refrigeration pipeline system

# WHAT CAN WE DO FOR YOU?

1

Copper welding connection fittings

Thickness uniformity  
Better roundness

Size : From 1/4" (6.35mm) up to 6" (150mm)

2

# WHAT CAN WE DO FOR YOU?

Copper V-profile fittings

Annealing process  
O-ring fit

M-profile series

Brass press fittings

3

# WHAT CAN WE DO FOR YOU?

Brass thread plumbing fittings

Annealing process  
Forging and temperature

Chrome plating brass

# WHAT CAN WE DO FOR YOU?

4

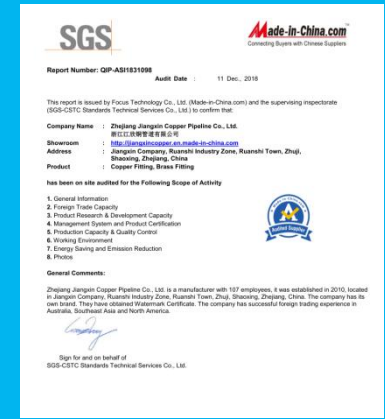

Brass Compression fittings

Component details

# WHY TRUST US?

Approved by  
ISO9001  
Rohs  
WATERMARK  
SGS

## Certifications and testing report

Quality control  
Raw material testing  
Routing inspection  
Leak detection
