# Company Profile

## Bory(Shenzhen) Electronics Co., Ltd

Bory Located in beautiful Shenzhen, China, we are a professional power manufacturer specializing in overseas markets.

Focusing on the research and development, manufacturing, and sales of intelligent network power energy in the data center (IDC) and new energy fields.

The company's mission and responsibility is to become a globally outstanding power supply enterprise with industrial influence in the field of power supply. Becoming a leader in the uninterrupted power supply industry and a leading provider of integrated solutions for safe electricity use and environment, we have developed and produced key infrastructure products for data centers, new energy photovoltaic power generation systems, and energy storage systems. Our integrated solutions are widely used in various industries, providing high-quality products and comprehensive services to users in multiple countries and regions around the world.

Bory has an excellent technical team with over 20 years of technical experience in the industry, continuously striving to achieve the corporate philosophy of "Made in China serving the world". Bory is one of the earliest companies engaged in the R & D, manufacturing and service of UPS power supply in China, is a pioneer in UPS industry and the earliest UPS power integration manufacturer with high-end power supply scheme system in China, its products are widely used in finance, industry, transportation, communication, government, national defense, medical treatment, electric power, new energy, data center and other industries, it serves more than 30 countries & regions and has more than 100,000 users around the world, it is committed to building an environment-friendly and energy-saving energy enterprise.

Bory Focus foreign market OEM or ODM  
Productions: UPS, battery, Data Center, Inverter  
Total Employees: around 200 people  
Factory area: 8,000 square meters

Factory 1 address: 1-2 floors, second phase, No. 3, Luotang District 2, Shuikou street, Huicheng District, Huizhou, Guangdong, China

Factory 2 address: 4th floor, Building A, No. 93, Boguang Second Road, Shangcun Community, Gongming Street, Guangming District, Shenzhen, Guangdong, China

## 480VAC LOW FREQUENCY UPS

### 3PH 250KVA-500KVA

- Input and Output voltage: 480VAC
- Output PF0.9
- Efficiency > 95%
- N+X Parallel Redundancy
- System parallel up to 6 pcs
- 7" touch-screen color LCD Display
- Programmable Battery Voltage
- Multi-function Parameter Setting

## 480VAC MODULAR ONLINE UPS

### 3PH 200KVA-600KVA

- ▶ 480VAC rated input/output voltage
- ▶ PF1, Efficiency > 96%
- ▶ Centralized bypass, centralized control, modular design
- ▶ Online double conversion and three level technology
- ▶ Cold start (battery start up), ECO mode operation
- ▶ Intelligent battery management
- ▶ Communications for network management and remote monitoring
- ▶ DSP technology
- ▶ N+X redundancy
- ▶ Compatible with lithium battery pack

## 110/120VAC SUPPORT DUAL VOLTAGE

### HIGH FREQUENCY ONLINE UPS INPUT AND OUTPUT 110&220VAC 1PH

PF:1

1KVA-10KVA

Charging current 1-12A settable

6KVA and 10KVA: 192VDC

(16/17/18/19/20 settable)

## 110VAC/120VAC HIGE FREQUENCY UPS

### 1PH 1KVA-10KVA

- 100/110/115/120/127VAC input and output voltage
- Efficiency > 95, Input PF > 99%
- Pure sine wave waveform
- True online double-conversion
- Cold start
- Lighting and surge protection
- LCD+LED display
