BTS-130N

Installation instructions

The installation of the bathing tub is shown in the following figure

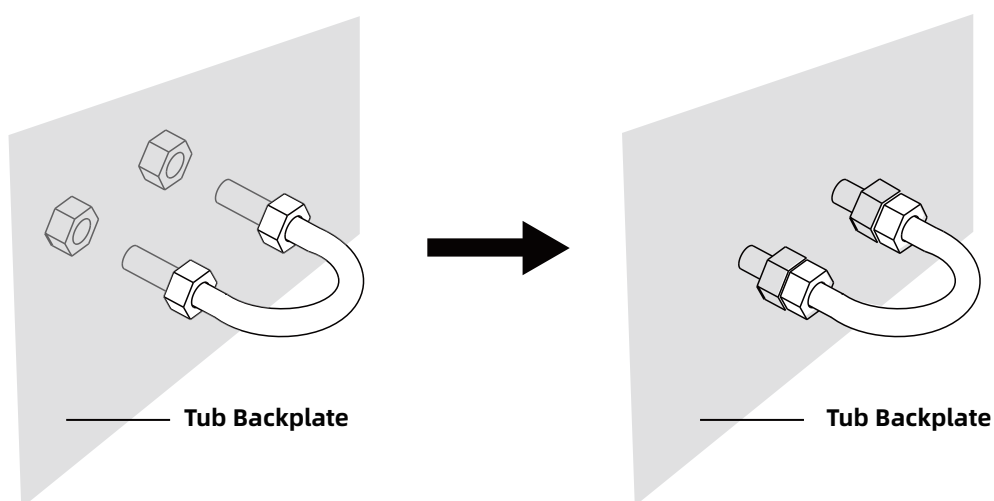

BTS-130N

Installation instructions

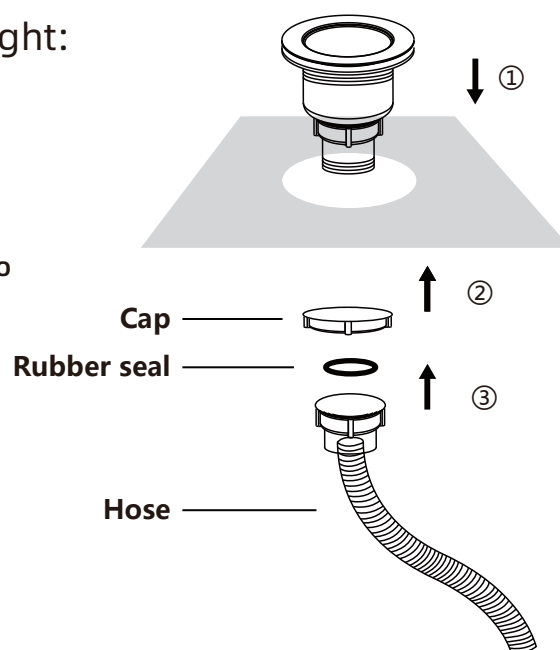

The installation of the hook on the back panel of the tank is shown in the following figure

Pass the hooks through tub backplate and tighten up the screws on the back.

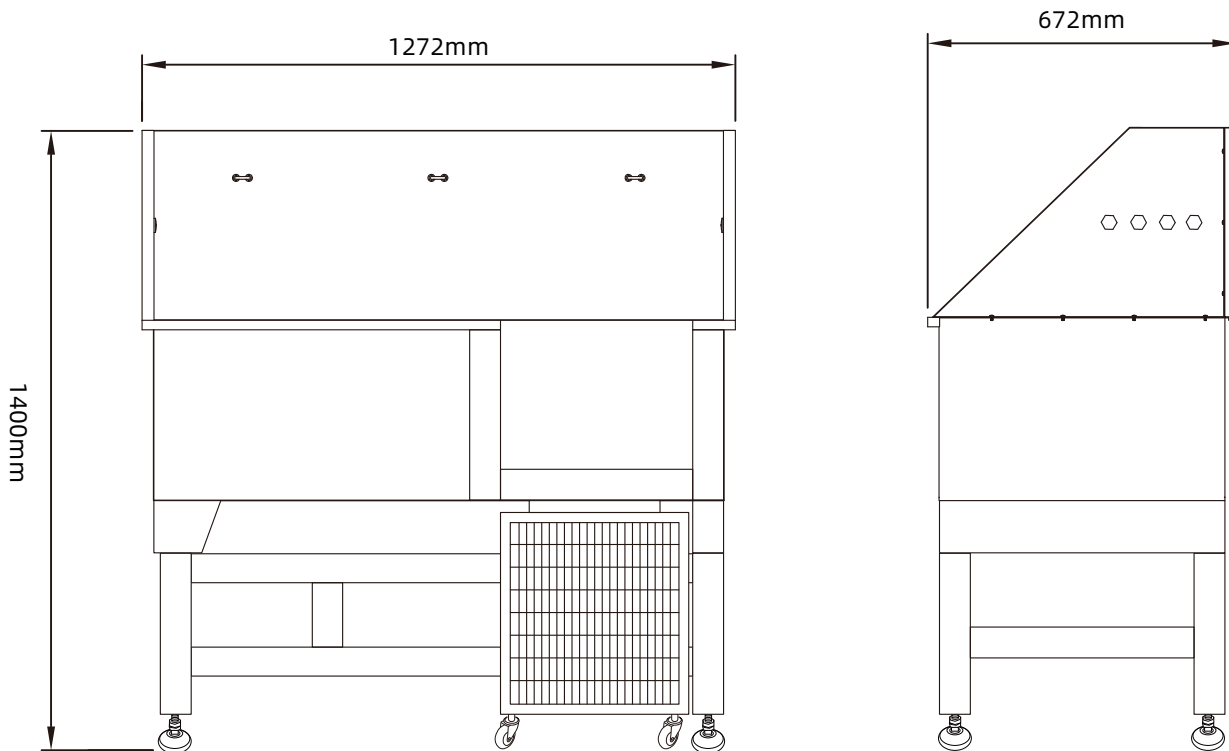

The installation of drain as shown on the right:

- ① Remove the cap from the drain and put it through the reserved hole on the tub.
- ② Put the cap back to the drain from the bottom of tub and tighten it clockwise.
- ③ Put the rubber seal on the hose connector and turn it into the drain and tighten it.

Parameter

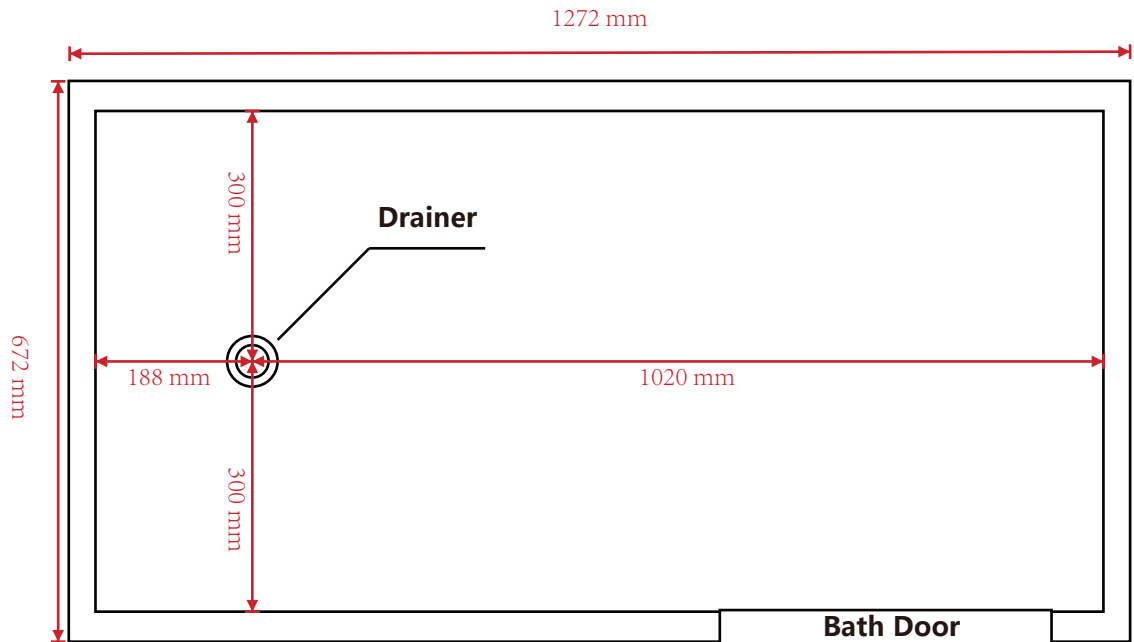

Front view

Side view

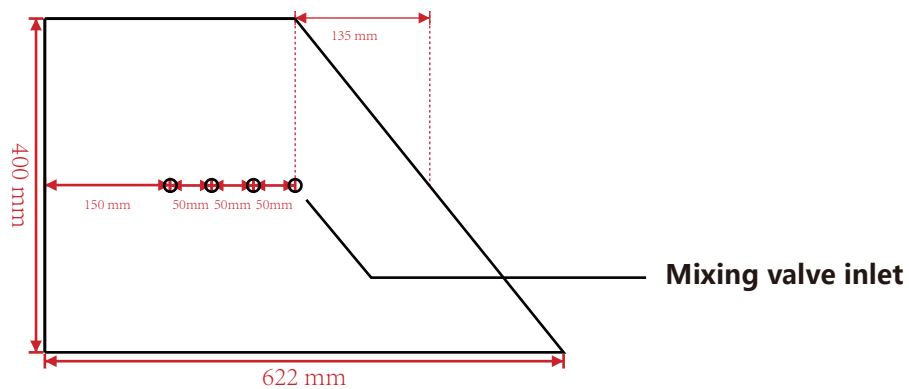

Type: BTS-130N			
Net weight(kg)	110	Gross weight(kg)	145
Product dimensions (cm)	127×67×140	Package dimensions (cm)	141×78×70H
Hose type		Four split water pipe interface	

Dimensional Diagram

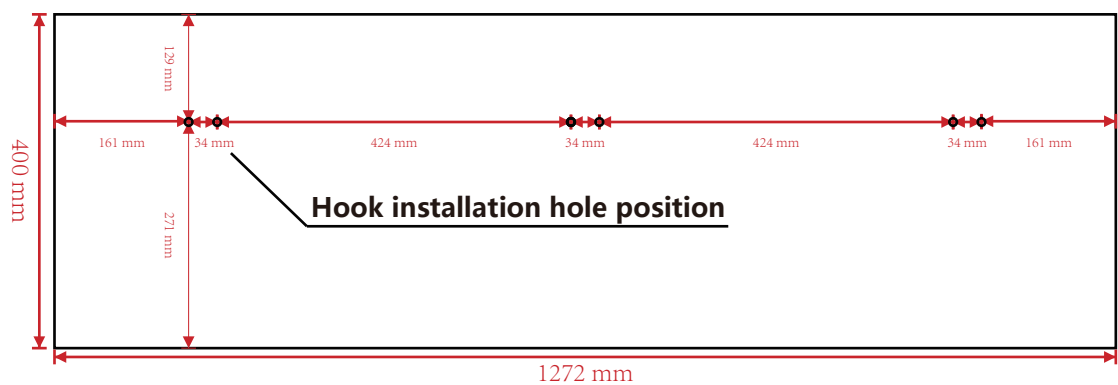

Plan view of tub bottom

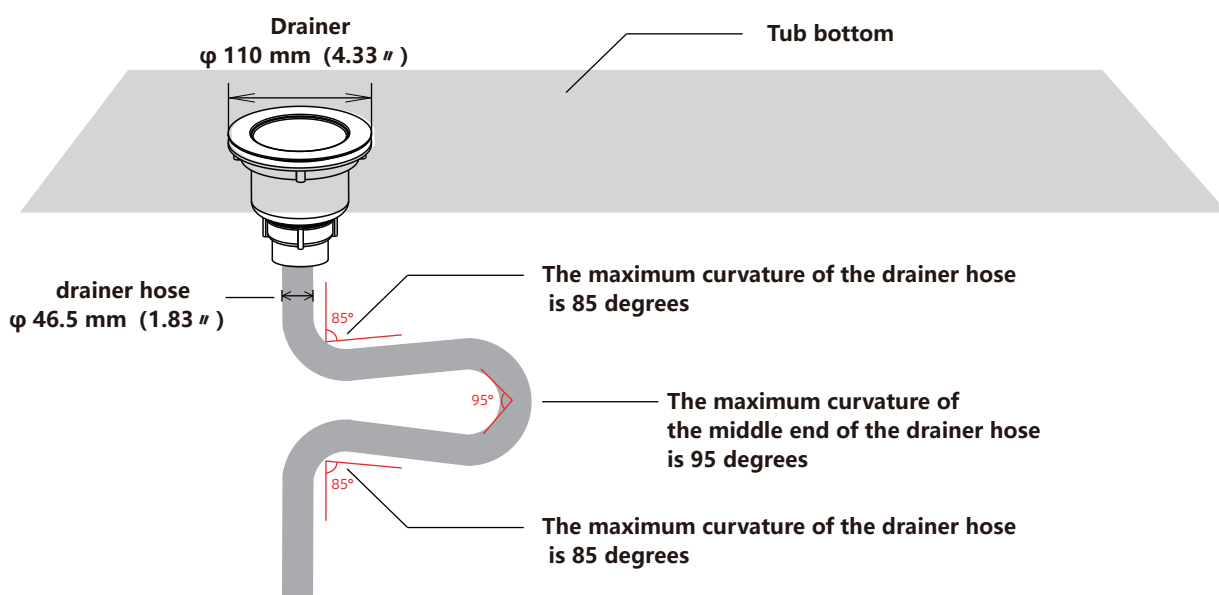

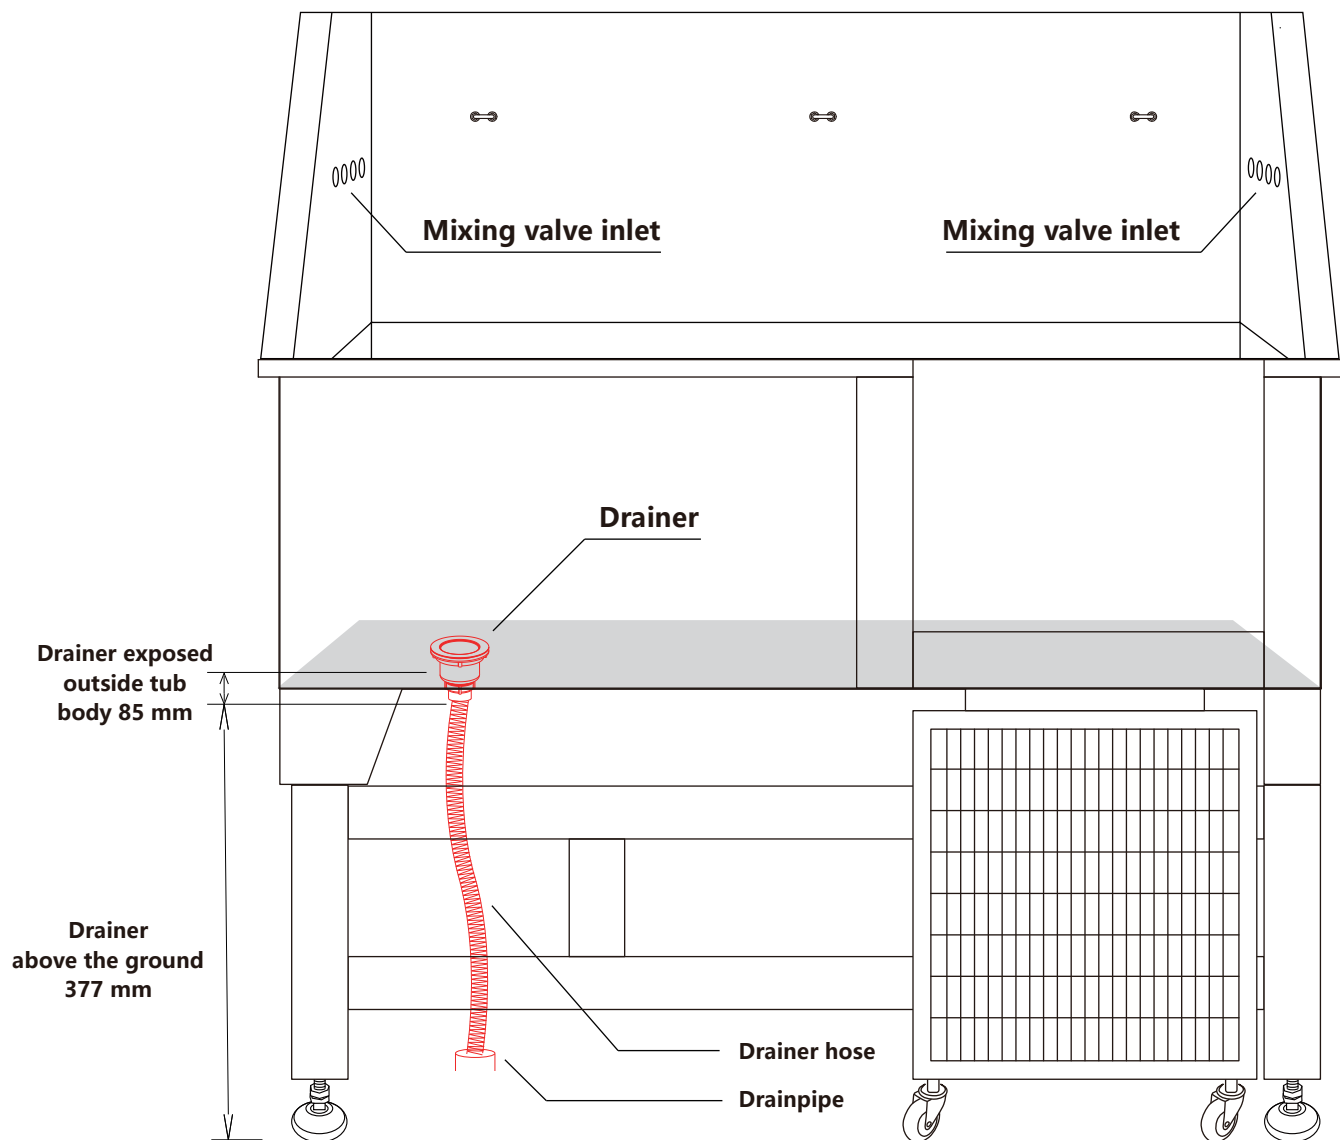

Plan view of triangular baffle

Plan view of backboard

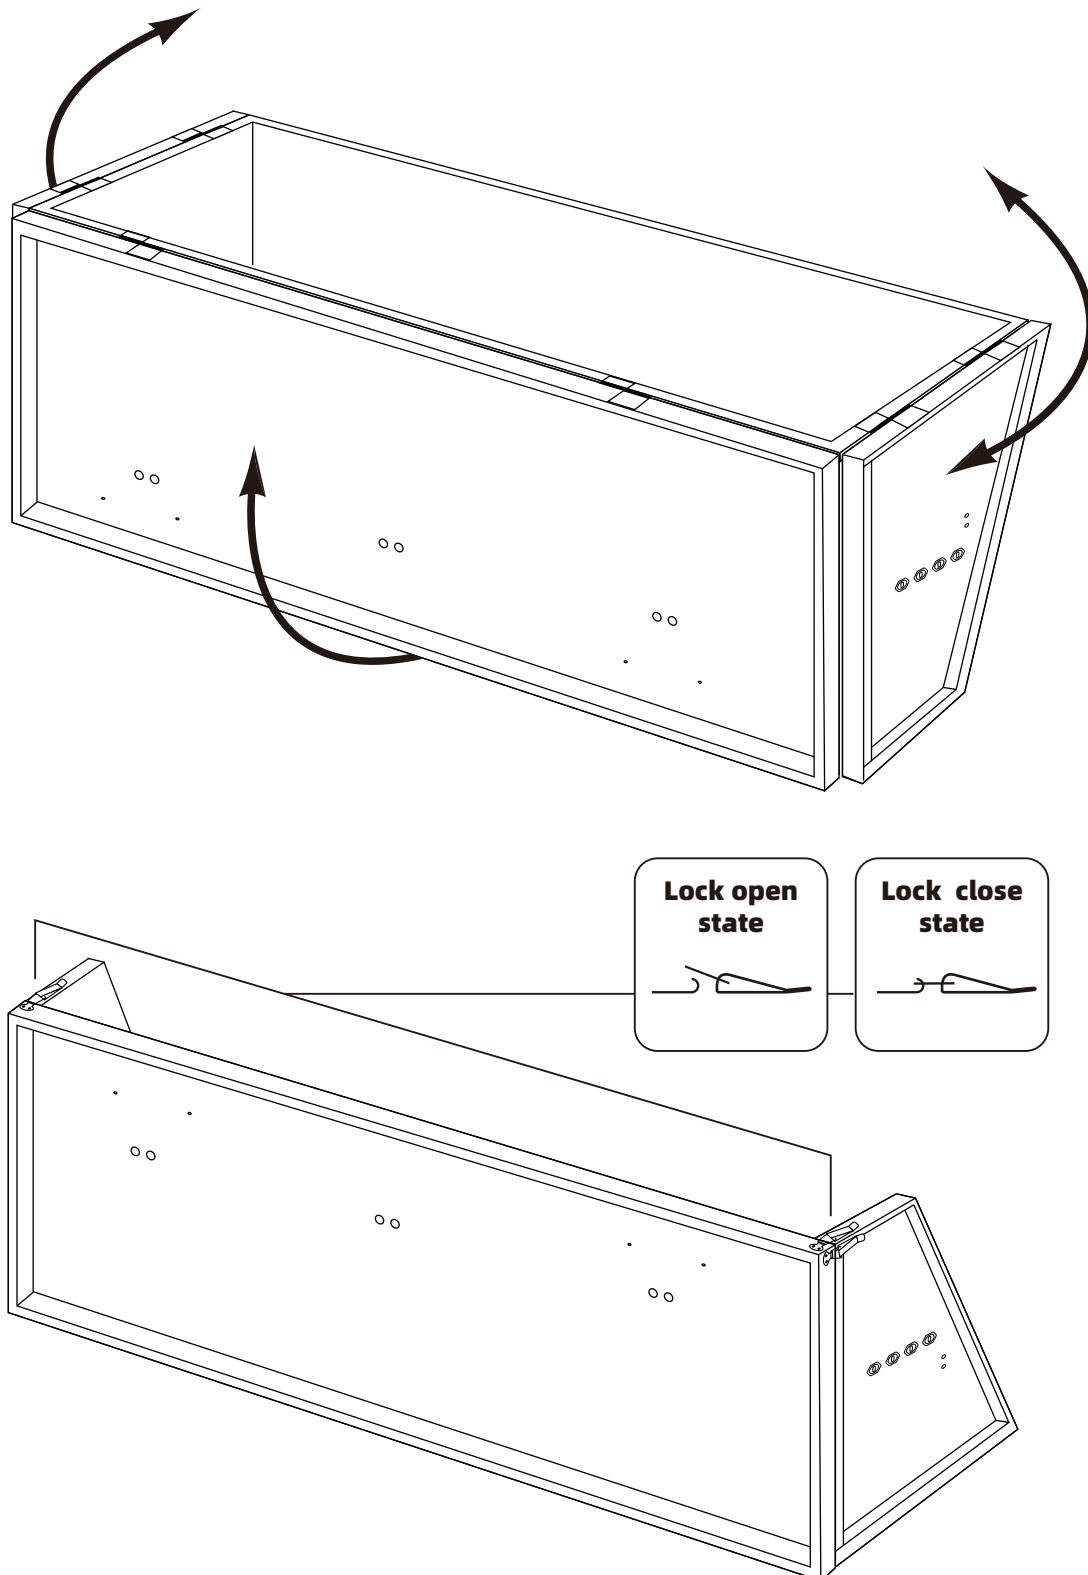

Do not exceed the maximum angle of the drainer hose, otherwise it will bend and affect the drainage effect.

Instructions for use

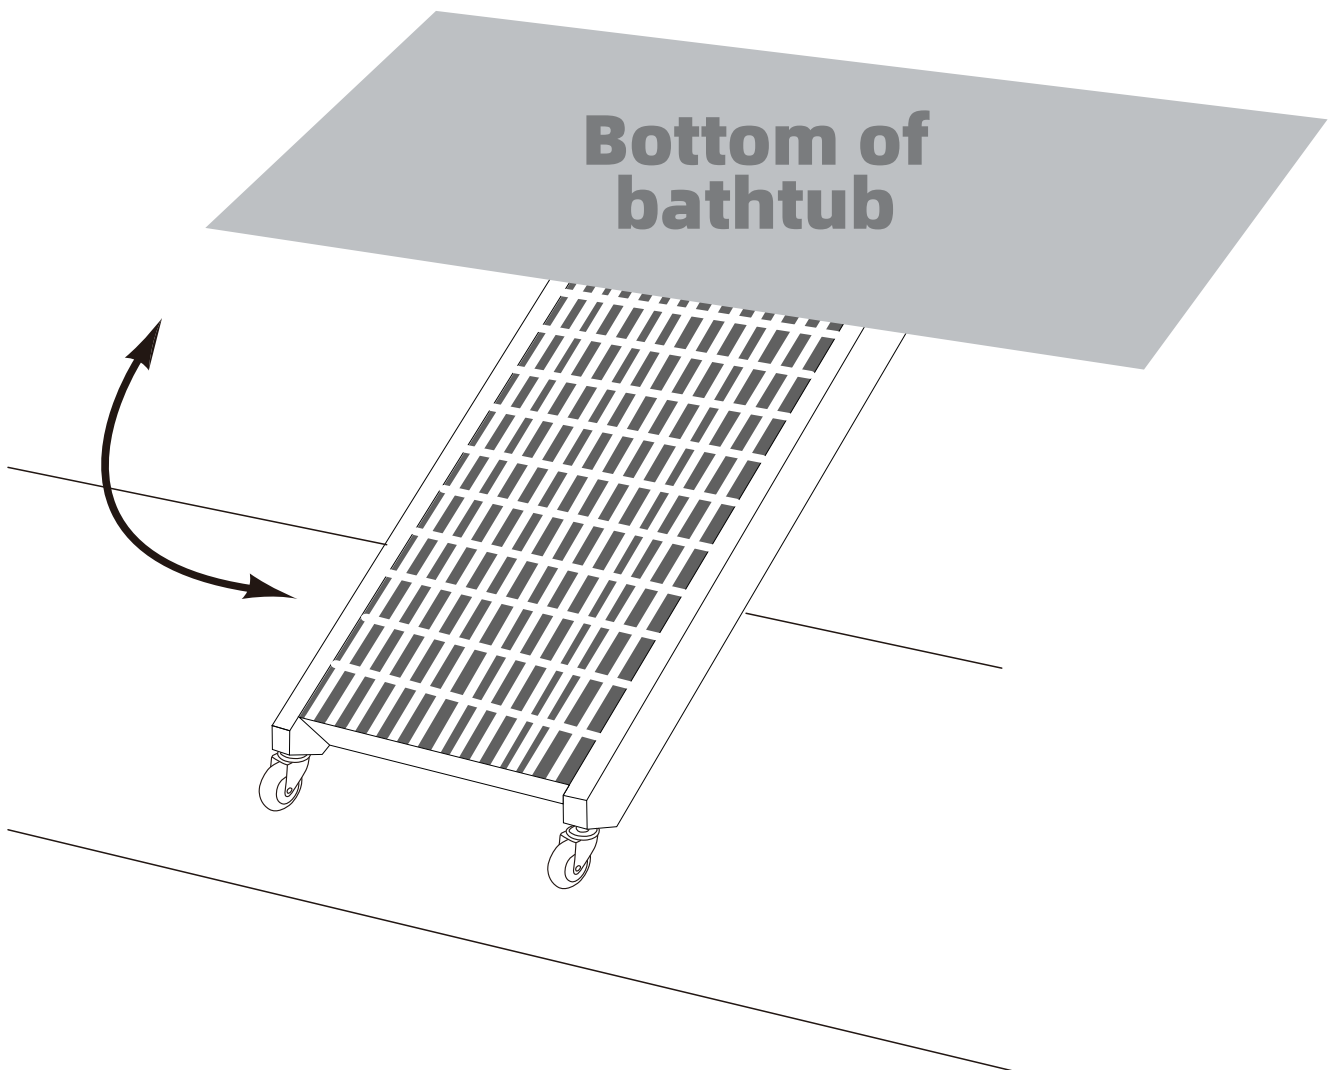

The storage method of the bathtub baffle is shown in the following figure

BTS-130N

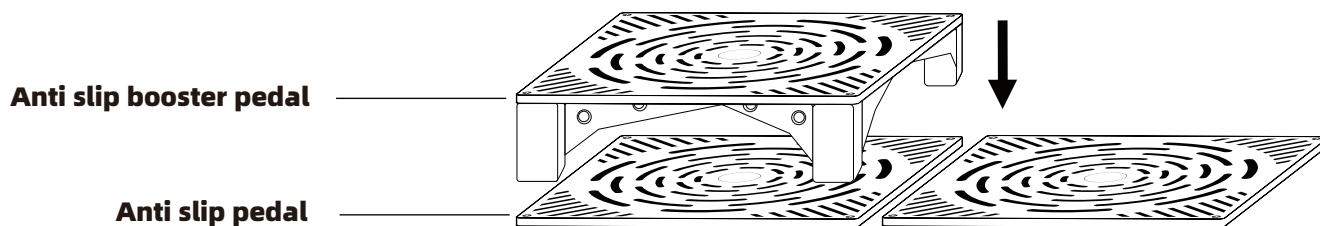

Instructions for use

The usage method of pet stair is as follows

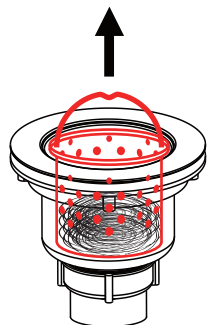

Pet anti slip pedal assembly retrieval and placement method:

Firstly, both anti slip pedals are placed in parallel,
Then, the anti slip booster pedal is stacked on top of the anti slip pedal
(the removal sequence is reversed from the insertion sequence).

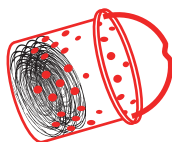

The use of drainer is shown in the following figure

If you need to remove the filter basket, you need to first remove the anti slip pedal before exposing the filter basket of the drain

Pull out the handle from the drain and lift out the filter basket

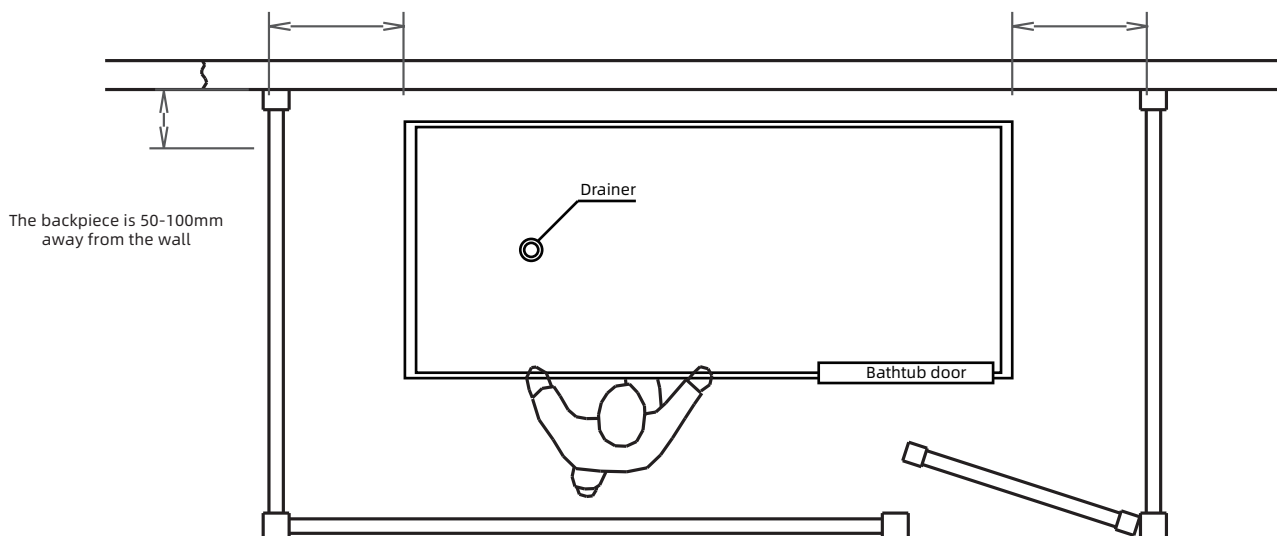

Regularly clean the filter basket, otherwise it will affect the drainage effect

The placement and use are shown in the following figure:

At least 200mm away from the left wall
(The specific distance can be freely adjusted to the appropriate position according to the direction of the water inlet of the mixing valve)

At least 200mm away from the right wall
(The specific distance can be freely adjusted to the appropriate position according to the direction of the water inlet of the mixing valve)

Note

1. This product is not intended for use by individuals (including children) with physical disabilities, delayed reactions, or mental disorders, unless there is the guardian shall supervise and guide the use of this product from the sidelines, and shall be responsible for the safety of the user;
